## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3, 5-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dickler et al. (US 6,037,319) in view of Coleman (US 3,861,529).

Dickler et al. disclose water-soluble packets containing liquid cleaning concentrates comprising "two sheets, sealed together at the edge regions...preferably, by heat sealing." (column 3, lines 27-30). The specific shape of the packet is not clear from the reference. However, Coleman teaches a thermoformed package with various base shapes including a circular or oval shaped base; see figures 3-7.

Regarding claim 2, the height of the body wall of Coleman seems to be less than that of the base wall. Even so, the examiner takes OFFICIAL NOTICE that it would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate such ratios.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to include the teachings of Coleman in the invention to Dickler et al. to provide for a particular shaped packet.

### ***Response to Arguments***

3. Applicant's arguments filed 7/02/04 have been fully considered but they are not persuasive. Dickler discloses packages with a concave cover as applicant recognizes however is not specific to the base structure of the package. Coleman specifically teaches a dome shaped package.

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971).

With respect to claims 2, 3, 5, 9, and 10, no issues have been raised by applicant; (claim 4 is cancelled).

### ***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
